UNDERSTANDING THE ROLE OF TRAUMA WHEN WORKING WITH VOICES, PARANOIA AND UNUSUAL BELIEFS

*A one-day workshop to help you learn
more about childhood trauma and its links
to paranoia and hearing voices.*

The workshop focuses on:

- Emotional problems associated with childhood trauma that create hearing voices and paranoia
- Three stages of voices and paranoia
- Dealing with the consequences with short term coping strategies but implementing longer term strategies
- Key issues with childhood trauma, including frozen terror, dissociative identities and flash surfacings
- Impact on children and the adults they become
- Identify ways to help those who are victimized to understand that the voices they hear and paranoia or unusual beliefs they experience have a reality base to enable them to make sense of their experiences, survive and recover

Who should attend?

- Mental Health Workers/Professionals
- Consumers
- Carers
- Teachers, Lecturers, Students, Councilors, GPs
- Anyone who supports or works with people with lived experience of hearing voices, paranoia and childhood trauma.
